CONNECTING INDUSTRY WITH RELIABLE COMPONENT SOLUTIONS

Registered Office: Nashik, Maharashtra, India

Branch Office: Juinagar, Navi Mumbai, Maharashtra, India

01 | COMPANY OVERVIEW

Shinova Automotive India Pvt. Ltd. is an India-based B2B component sourcing and supply company established in 2026. The company focuses on automotive components, precision fasteners, EV-related electronics, industrial automation products, and components for the home appliance industry.

Shinova's business model is built around collaboration with manufacturing partners and component suppliers. The company coordinates customer requirements, supplier engagement, commercial discussions, and order follow-up to help customers source components in line with agreed specifications, quality expectations, and delivery requirements. The founders bring more than 15 years of combined industry experience. Their previous professional engagements included industry exposure associated with thyssenkrupp Automotive, Motherson, Panasonic and Sharp. These references describe the founders' experience through previous companies and are not presented as current customer relationships of Shinova.

2026

Company established

15+ Years

Founders' combined experience

India + Export

Intended supply coverage

OUR BUSINESS APPROACH

- Understand customer drawings, product specifications and application requirements.
- Identify suitable manufacturing partners and component suppliers.
- Coordinate quotations, manufacturing feasibility and commercial discussions.
- Follow up on agreed quality documentation, production schedules and delivery commitments.
- Maintain responsive communication from requirement review through order fulfilment.

OUR LOCATIONS

Registered Office

Nashik, Maharashtra, India

Branch Office

Juinagar, Navi Mumbai, Maharashtra, India

02 | AUTOMOTIVE & EV COMPONENTS

Automotive Components & Precision Fasteners

Shinova coordinates sourcing and partner-led manufacture of selected components for automotive and related manufacturing applications. Product scope is based on customer requirements and the capabilities of the relevant manufacturing partner.

- Automotive body components and application-specific metal parts
- Rivets, nuts and precision fasteners
- Metal joining and fastening components
- Customized components based on customer drawings and agreed specifications
- Selected electrical and electronic components for automotive applications

EV & Electronic Components

Shinova supports component sourcing for electric mobility, automotive electronics and related industrial applications, subject to product availability and technical suitability.

- Integrated circuits (ICs)
- Current sensors
- Semiconductor components
- Electronic components and modules
- Selected electrical and electronic parts for EV-related applications

CUSTOMER REQUIREMENT

Application, drawing, part number, quantity, target cost and delivery need

SUPPLIER COORDINATION

Supplier identification, feasibility, quotation, documentation and order follow-up

HOW WE AIM TO ADD VALUE

- Sourcing flexibility across a network of manufacturing and component partners.
- Clear communication of requirements, commercial terms and lead times.
- Coordination around customer-specific documentation and inspection expectations.
- A single point of contact for sourcing and supply coordination.

03 | INDUSTRIAL & APPLIANCE COMPONENTS

Industrial Automation & Control Products

Shinova supports industrial customers, machine builders and automation system integrators through sourcing and supply of selected industrial control products and electronic components.

- Human-Machine Interfaces (HMI)
- Programmable Logic Controllers (PLC)
- Industrial electronic components
- Automation and control equipment
- Selected electrical components for

industrial applications

Home Appliance Components

Shinova coordinates the sourcing and supply of fastening and precision metal components for home appliance and consumer durable applications through manufacturing partners. Partner facilities may be located in Nashik, Maharashtra, where applicable to the order.

- Rivets and nuts
- Precision metal fasteners
- Customized metal components
- Assembly and joining components
- Other customer-specific parts, subject to feasibility

PARTNER-LED SUPPLY MODEL

Shinova does not represent all supplied products as in-house manufactured. Products may be sourced from established suppliers or manufactured by partner companies according to agreed requirements. Manufacturing location, production capability, inspection arrangements and documentation are confirmed for the specific product and order.

TYPICAL COORDINATION FLOW

1. Requirement

Drawing, part number, application and quantity

2. Partner match

Supplier capability and feasibility review

3. Commercial

Quotation, lead time and terms

4. Order follow-up

Production status, documentation and delivery coordination

04 | Electronics & Electrical Equipment Portfolio

1. Electronic Components & PCB

- Printed Circuit Boards (PCB)
- PCB Assemblies (PCBA)
- Integrated Circuits (ICs) and microchips
- Semiconductors and electronic chips
- Sensors, connectors, relays and switches
- Electronic control modules and components

2. Electrical Components & Switchgear

- Circuit breakers, fuses and contactors
- Switchgear and control panels
- Transformers and power distribution equipment
- Cables, wires and electrical connectors
- Industrial switches and protection devices

3. Industrial Electronics & Automation

- PLCs, HMIs and automation controllers
- Variable Frequency Drives (VFDs)
- Servo motors, drives and sensors
- Industrial control systems
- Instrumentation and monitoring equipment

4. Power Electronics & Lighting

- Power supplies, inverters and converters
- UPS systems and battery management systems
- LED drivers and lighting components
- Energy management and power control devices

5. Electronics Manufacturing Equipment

- SMT and PCB assembly machinery
- Electronic testing and inspection equipment
- Soldering and component placement machines
- Industrial electronic production equipment

04 | EXPERIENCE, QUALITY & COMPLIANCE

Founders' Industry Background

Shinova was established in 2026. Its founders bring more than 15 years of combined industry experience from previous professional roles. Their background includes experience associated with the automotive, electronics and home appliance sectors, including work connected with thyssenkrupp Automotive, Motherson, Panasonic and Sharp through previous companies.

These references are provided to describe the founders' prior industry exposure only. They do not imply that the named companies are current customers of Shinova Automotive India Pvt. Ltd.

Quality Coordination

Shinova aims to coordinate with suitable suppliers and manufacturing partners to meet agreed customer specifications.

Depending on the product and customer requirements, coordination may include specification review, supplier documentation, inspection arrangements, traceability information and delivery follow-up. Applicable certifications, testing arrangements and quality documentation must be confirmed for the relevant supplier, manufacturing facility and customer requirement. No certification is claimed in this profile.

Business Registrations

The company has advised that GST and MSME registration certificates are available. Registration identifiers are intentionally not printed in this draft because certificate copies and exact details have not been provided for verification.

Our Core Strengths

- Founder-led industry knowledge and customer-oriented communication
- Flexible sourcing through manufacturing partners
- Component supply coverage across multiple industrial sectors
- Co-ordination of customer-specific sourcing and manufacturing requirements
- Focus on competitive commercial terms and delivery commitments
- Interest in building long-term supplier and customer relationships

OUR COMMITMENT

Build dependable supply relationships through clear communication, suitable partner selection, careful coordination and a focus on customer requirements.

05 | PARTNER WITH SHINOVA

Shinova Automotive India Pvt. Ltd. aims to connect customer requirements with suitable component suppliers and manufacturing partners. By combining the founders' prior industry experience with a flexible sourcing model, the company seeks to provide responsive support for automotive, EV, industrial automation and home appliance component requirements.

INDUSTRIES WE SUPPORT

AUTOMOTIVE

Body components, rivets, nuts and precision fasteners

INDUSTRIAL AUTOMATION

HMI, PLC and selected control products

EV & ELECTRONICS

ICs, current sensors and selected electronic components

HOME APPLIANCES

Rivets, nuts and customized metal components
